

Description:

APEX A3+ (33cm) DTF Printer equipped with Dual i3200 Printer Heads, a powerhouse designed for precision and efficiency in printing PET film vinyl for clothing. Boasting Epson's original i3200 print heads, this DTF Printer guarantees high-speed performance, impeccable resolution, and remarkable durability.

With a printing width of up to 330mm, the DTF-A3+ printer is designed for high-efficiency and precision in direct-to-film printing, making it ideal for small to medium-sized print businesses. The use of dual EPSON i3200 printheads ensures exceptional print quality and speed, enhancing productivity and output quality. With its broad printing width, the DTF A3+ Printer can handle larger prints, offering greater versatility and scope for creative applications.

APEX DTF printer stands out for its ability to deliver high-resolution prints with vivid colors and sharp details, making it perfect for producing custom apparel, accessories, and other fabric-based items. The combination of its advanced printhead technology, expansive print width, and superior print quality positions the DTF A3+ Printer as a top choice for businesses looking to excel in the competitive field of direct-to-film printing.

Dual Epson i3200 Printer Heads: Enhances print quality and speed, ideal for high-volume printing.

Ease of Operation: User-friendly interface for quick learning and efficient operation.

Faster Printing Speed: Accelerated printing process for efficient project turnaround.

Higher Grade A3+ Printer: Superior print size and quality, perfect for professional-grade custom apparel and merchandise.

Compact Design: Fits easily in smaller spaces, ideal for various printing environments.

Specification:
