

Description:

APEX UV6090P UV LED printer is a professional UV printer with a large format of 60*90cm. It is suitable for printing various materials such as PVC, PP, PE, PS, PET, etc. The printer is equipped with a high-quality UV LED light source, which can provide high-speed and high-quality printing results. The printer also has a large working table and a power clean function, making it easy to operate and maintain.

The printer is equipped with a DX5 printhead, which can provide high-resolution printing results. The printer also has an auto height measurement function, which can automatically adjust the printing height to ensure the quality of the printing results.

The printer is suitable for industrial bulk production with high printing speed. The printer is also equipped with a working table, which can provide a large area for printing.

NEW

UV6090P

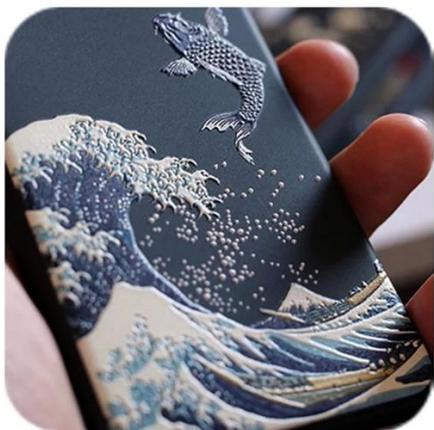

- ▶ The UV light source can be adjusted
- ▶ Auto height measurement
- ▶ Power clean
- ▶ Direct to any substrate
- ▶ Ideal for industrial bulk production with high printing speed
- ▶ Max printing Size: 60*90cm
- ▶ With Working Table

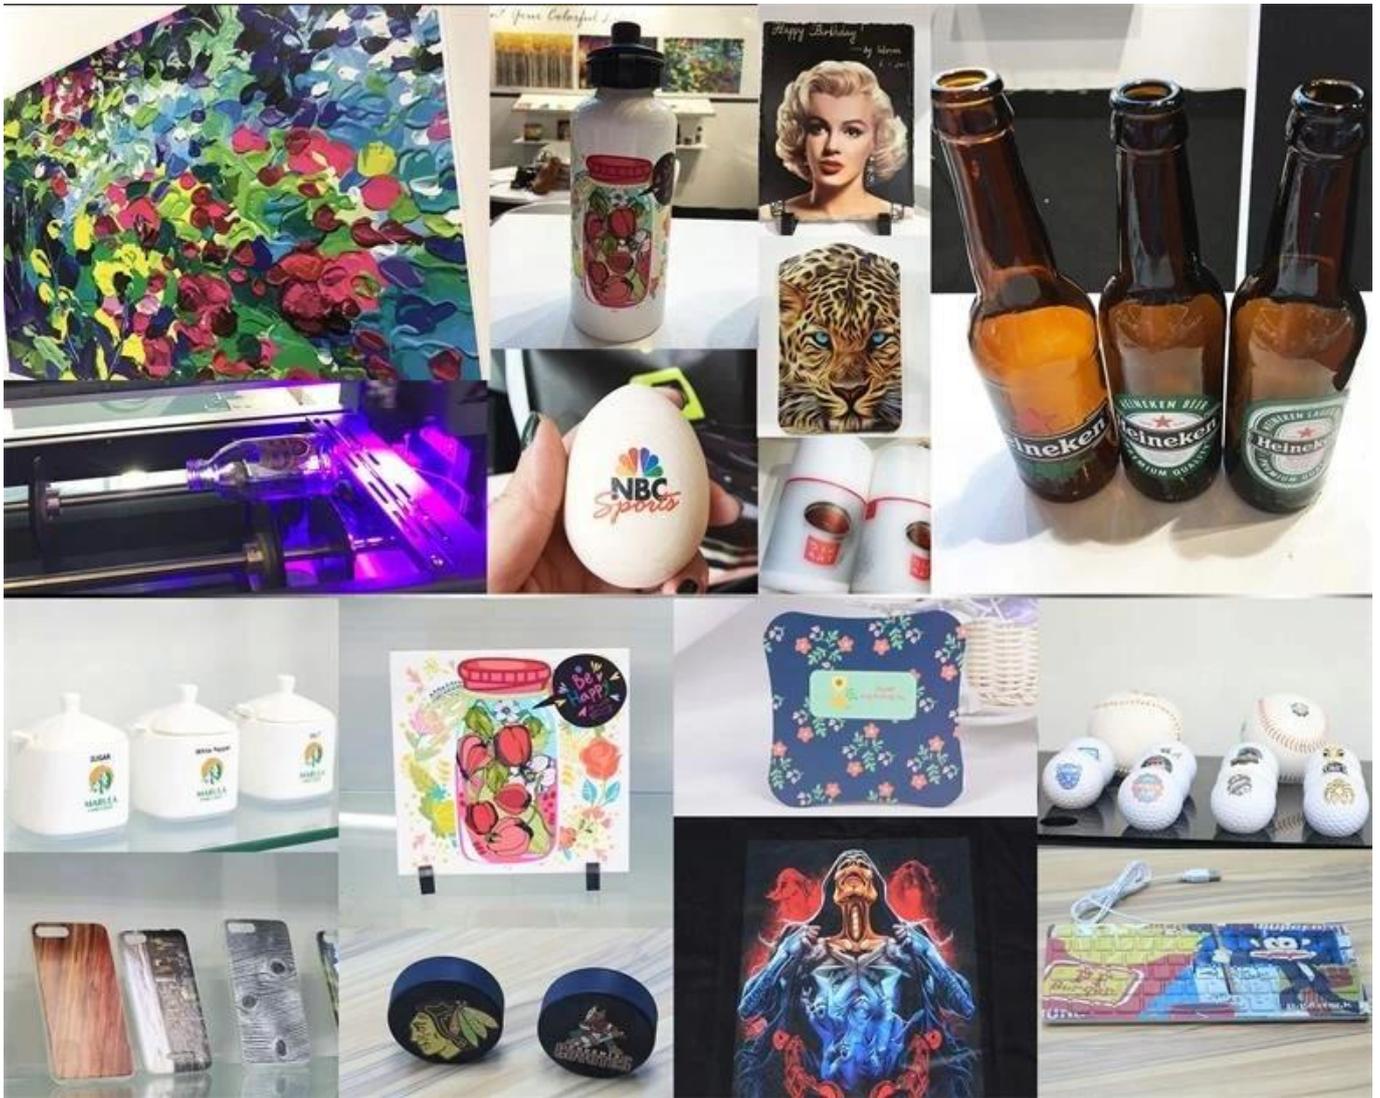

Feature:

- *UV printer
- *LED light source
- *Large format
- *High speed
- *Auto height measurement
- *Max printing size 60 * 90cm
- *Working table

Specification:

Model	UV6090P
Light Source	UV LED
Print Area	23.62 " * 35.43 " 60 * 90cm
Resolution	1440 * 5.51 " "
Power	380W
Voltage	50 / 60HZ 220V ± 10% < 20A
Temperature	20~28C HR40-60
Printhead	DX5 180 * 8
RIP	SAi PhotoPrint DX
Material	PVC/PP/PE/PS/PET/PC/PMMA/ABS
Thickness	0.5-3mm
Weight	25kg

Warranty:

- Microtec / Apex
