

Description:

APEX N6090 UV printer is a high-speed, high-resolution digital printing machine. It is designed for direct-to-object printing on a wide range of materials, including plastic, metal, wood, and glass. The machine features a UV curing system that allows for fast drying and high durability of the printed images. It is also equipped with an anti-static device to prevent dust and ink from settling on the printed surface. The APEX N6090 is a reliable and efficient solution for high-volume digital printing.

NEW DESIGN!

Upgraded UV Printer N4060 & N6090

- Direct to any material
- Anti-static device useful in dry weather
- Waste ink suction with a fan, suck flying ink dot and dust
- Damper-heating structure, avoid ink block in cold weather

The advertisement features a large, white APEX UV printer with a blue and silver design. The printer is shown in a studio setting with a black background and colorful, abstract splatters. To the left of the printer, there are three printed items: two mugs and a baseball. The mugs are white with colorful designs, and the baseball is white with red stitching and the text 'OFFICIAL LEAGUE'. In front of the printer, there is a tray containing several ink cartridges in various colors (pink, green, yellow, blue, black). The APEX logo is prominently displayed on the printer's front panel and on a circular emblem in the top right corner of the advertisement.
