## **Equipped with TOSHIBA CE4 Print Head**

High density nozzles, as many as 636, dot frequency is 28KHZ which will help to achieve a high print speed. Spray ink can reach 300 billion times without clogging and ablique, but with long durable life. 8 Levels grey scale, 5PL ink drop size, with a high resolution.

## **Certificated Ink**

Ink is get supplier certificated, pass SGS certification. Without any components which may damage print head, which will prolong the service life of the printer head. And the ink is high density and wide color gamut.

## **High Precision Printer Head Base Board**

Printer head base board is OEM by professional factory with high-precise process. Error is less than 0.01mm to improve print accuracy.

## **Stable Accessories**

All accessories of the ink system are certified and stable working, without any chemical reaction with ink.

## **Professional RIP software**

User interface is simple, easy to understand and operate. Efficient workflow, and excellent image handing, rich color management tools, professional color processing.

## **Printer Head Anti-Collision System**

Printer Head is installed with Anti-collision system to prevent any damage from accidents caused by human error or material deformation.

# Specification:

| Model No.            | UV1610   |

#### Equipped with TOSHIBA CE4 Head

High density nozzles, as many as 636, dot frequency is 28KHZ which will help to achieve a high print speed Spray ink can reach 300 billion times without clogging and ablique, but with long durable life. 8 Levels grey scale, 5PL ink drop size, with a high resolution.

### Easy Operation Control Panel

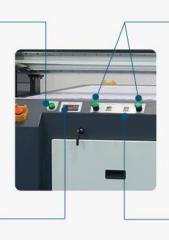

Which will make you to use this printer without any confuse. Also all the button is installed with direction and different color to show its functions.

Low Water Indicator 
This Button will on if the water cooling system need to be refill with water.

Print Head Temp 
This indicator will show the status of the printer head.

Cleaning Button 
These two button will allow you to operate the cleaning easy.

Pressure Gauge 
It will show the Pressure the ink.

### Certificated Ink Installed box for the ink bottle which is most space-saving and good looking.Also the Ink is get supplier certificated, pass SGS certification. Without any components which may damage print head, which will prolong the service life of the printer head. And the ink is high density and wide color gamut.

### Professional Water Cooling System

Water's high specific heat capacity, density, and thermal conductivity, allows water to transmit heat more easily. So it can more efficiently cool down UV LED light, in order to prolong its lifetime.

### Vacuum Table 🔺

Consists of a typically flat rigid surface in which exists small holes to evacuate air from under a workpiece, as to apply varying vacuum from between the desired workpiece and table to maintain a clamping force.

To make the soft printing materials like leather more smooth and level, so as to get the best printing result.

## Application:

This Apex UV1610 UV printer is ideal with industrial use and can directly print on any flat materails with fast speed and high precision.

# Warranty:

Microtec/Apex's main objective is to support all our customers, who can manage their APEX UV printers activities without interruption. So Apex offers FREE SPARE PARTS with a quantitative order and the following guarantee:

- \* Free lifetime technical support online for all apex printers.
- \* One year warranty for the whole machine excluding printer heads
- \* Three months warranty on the consumable parts like dampers, cap tops, etc.
- \* Five professional English engineer available to provide onsite service if customer needed(customers pay onsite service charge, bear tickets and accommodation)
